

MICRO MILLING

PREMIUM 2600

Micro Milling Premium 2600 Thin set is a blend of Portland cement, graded sand and special additives (including redispersible polymers which are designed to improve adhesion and provide greater bond strength).

Features:

- Suitable for installing porcelain tiles, ceramic tiles, clay tiles, cement tiles, glass tiles, quarry tiles, brick pavers, marble, natural stone and other non-porous tiles.
- For Commercial or Residential use.
- For Interior and exterior.
- For floors and walls.
- Ideal for installing tile (including porcelain) over concrete substrates.
- Specially formulated for warm weather conditions.
- Exceeds ANSI A118.4 standard for modified dry-set Portland cement tile mortar.
- Excellent adhesion to Exterior Grade Plywood (EGP) – interior applications only*
- Polymer Modified
- Mix with water only.

Available in 22.7 kg./ 50 lbs size

Coverage:

Using a ¼" x ¼" (6x6mm) notched trowel on an evenly prepared surface, one bag will cover 30-50 sq. ft. (2.78- 4.65 m²).

*Micro Milling recommends proper preparation of plywood surfaces using TEC Multipurposeprimer. See our website for additional details.
